Monitoring Period <i>Indicate the Monitoring periodo f this document.</i>	
Date of this document	
Responsible Team for the monitoring plan	

CONTENIDO

1.	PROJECT DETAILS.....	1
1.1	. Summary Description of the implementation Status of the Project.....	1
2.	IMPLEMENTATION STATUS.....	2
2.1	. Implementation status of the Project	2
2.2	. Desviations	2
2.3	. Monitoring Plan.....	2
3.	DATA AND PARAMETERS.....	3
3.1	. Reference parameters.....	3
3.2	. Data and parameters monitored	3
4.	QUANTIFICATION OF GHG REMOVALS	4
4.1	. Baseline Removals.....	4
4.2	. Project removals.....	4
4.3	. Net GHG Removals	4
4.4	. Comparison between estimated removals (<i>ex ante</i>) and those achieved <i>ex post</i>	4

1. PROJECT DETAILS

1.1. Summary Description of the implementation Status of the Project

Provide a summary description of the implementation status of the Project, including the following (not more than 500 words):

- *Objective of the project*
- *Summary of the technology to be employed.*
- *Location.*
- *Description of emissions removals*
- *Identify and justify the previous scenario before the Project start.*

- *Objetivo*
- *Una descripción resumida de las tecnologías / medidas implementadas en el proyecto.*
- *La ubicación del proyecto.*
- *The total GHG emission reductions or removals generated in this monitoring period.*

2. IMPLEMENTATION STATUS

2.1. Implementation status of the Project

Describe the implementation status of the project, include information on the following:

- *The operation of the project activity(s) during this monitoring period, including any information on events that may impact the GHG emission reductions or removals and monitoring.*
- *Any other changes of the implementation.*

2.2. Desviations

Describe and justify any desviation applied during the monitoring period. Include the following:

- *Methodology desviations.*
- *Project description desviations.*
- *Monitoring plan desviations.*

2.3. Monitoring Plan

Describe and justify the monitoring plan during this monitoring period, include details on the following:

- *Monitoring Metodology applied.*
- *Description of the monitoring plan.*
- *Education or training activities that have been developed within the framework of the project for the preparation of those responsible for monitoring.*
- *The methods used for generating/measuring, recording, storing, aggregating, collating and reporting the data on monitored parameters.*

3. DATA AND PARAMETERS

3.1. Reference parameters

Reference parameters are those presented in the Project Document and were approved for the calculation of GHG removals.

Complete the table below for all data and parameters. Copy and paste as many times as necessary:

Data / Parameter:	
Data unit:	
Description:	
Value applied:	
Source of data:	

3.2. Data and parameters monitored

Describe the results obtained by monitoring the parameters required by the applied methodology and the Monitoring Plan.

Complete the table below for all data and parameters. Copy and paste as many times as necessary:

Data / Parameter:	
Data unit:	
Description:	
Data / Parameter:	
Description of measurement methods:	
Frequency of monitoring/recording:	
Source of data:	
Comments:	

4. QUANTIFICATION OF GHG REMOVALS

4.1. Baseline Removals

Describe the quantification methods of the baseline removals.

Provide sufficient information to allow the reader reproduce the calculation.

4.2. Project removals

Describe the quantification methods of the project removals.

Provide sufficient information to allow the reader reproduce the calculation

4.3. Net GHG Removals

Describe the quantification methods of the net GHG Removal.

Provide sufficient information to allow the reader reproduce the calculation

Emisiones del escenario base (t CO2-e)	
Emisiones del escenario proyecto (t CO2-e)	
Absorción de emisiones (t CO2-e)	

4.4. Comparison between estimated removals (*ex ante*) and those achieved *ex post*

According to the information analyzed, describe and justify the difference between the actual GHG removals monitored and achieved after the implementation of the monitoring plan (EX POST) and those presented in the project document (EX ANTE).
